

# THOMAS ALEXANDRE LANGLOIS, PhD

[tal22@mit.edu](mailto:tal22@mit.edu) ◇ 202-459-8772 ◇ [Website](#) ◇ [LinkedIn](#) ◇ [Github](#)

## PROFESSIONAL EXPERIENCE

---

**Massachusetts Institute of Technology (MIT), Brain and Cognitive Sciences (BCS)** Cambridge, MA

Postdoctoral Associate (and visiting scholar at NYU Department of Psychology) 09/2024 — Present

- Developing **information theoretic models** and quantitative analyses for **natural language processing** tasks
- Modeling efficient compression in humans and generative AI systems using the **Information Bottleneck Principle**
- Designed, developed and deployed **large-scale web applications** for crowdsourcing human annotations over **Prolific**
- Published research findings in the **Proceedings of the Cognitive Sciences Society**. [[CogSci 2025](#)]

**University of Texas at Austin, Center for Perceptual Systems (CPS)** Austin, TX

Research Affiliate Postdoctoral Fellow 02/2023 — 09/2024

- Investigated how **visuomotor neurons** in the primate brain integrate sensory information with prior expectations
- Developed **Bayesian models** of non-human primate behavioral and neural response data
- Developed **drift diffusion models (DDMs)** of evidence accumulation in neural spiking activity in PFC
- Published research findings in the **Proceedings of the National Academy of Sciences (PNAS)** [[PNAS 2025](#)]

**Princeton University, Department of Computer Science** Princeton, New Jersey

Postdoctoral Research Associate 08/2018 — 02/2023

- Developed **Bayesian computational models** of perceptual inference and memory using **efficient coding theory**
- Designed, developed and deployed **large-scale web applications** investigating visual memory in over 10,000 subjects
- Built and evaluated computer vision **neural network models** to compare human visual selectivity to machine attention
- Presented findings in **Neural Information Processing Systems (NeurIPS)** as an oral presentation. [[NeurIPS 2021](#)]
- Published research findings in the **Proceedings of the National Academy of Sciences (PNAS)** [[PNAS 2021](#)]
- Published work in **ICML** [[ICML 2023](#)], and the **Proceedings of the Cognitive Sciences Society** [[CogSci 2019](#)]

## EDUCATION

---

**UC Berkeley, Department of Psychology (Cognition, Brain, & Behavior Program)** Berkeley, CA

PhD, Psychology (Cognition Track) 08/2018

**UC Berkeley, Electrical Engineering and Computer Sciences (EECS)** Berkeley, CA

MS, Computer Science 08/2018

**Georgetown University, College of Arts & Sciences** Washington, DC

BA, Psychology & BA Studio Art and Art History 08/2008

## PUBLICATIONS

*Authors who equally contributed to a publication are marked with an \**

#### SELECTED INVITED TALKS & PRESENTATIONS

---

University of Illinois Urbana-Champaign (UIUC), Champaign, Illinois, February 2025

Yale University, New Haven, CT, December, 2024

MIT CogLunch, Cambridge, MA, October, 2024

NYU ConCats, New York City, NY, October 2024

Redwood Center for Theoretical Neuroscience, University of California, Berkeley, August, 2024

12st Annual Meeting of the Vision Sciences Society, St. Pete Beach, FL, May 2024

UT Austin Dialogues, Austin, October 2023

Stanford University Wu Tsai Neurosciences Institute, January 2023

Redwood Center for Theoretical Neuroscience, University of California, Berkeley, December 2021

Harvard University, Harvard Vision Lab, December 2021

Max Planck Institute for Empirical Aesthetics (MPIEA), Frankfurt, October 2021

NYU ConCats, New York City, October 2021

Facebook Research Labs (AR/VR), New York City, 2020

Max Planck Institute for Empirical Aesthetics (MPIEA), Frankfurt, November 2019

Proceedings of the 41st Annual Conference of the Cognitive Science Society, Montreal, July 2019  
Princeton University ImageX Labs (PIXL) lunch talk, Princeton University, Princeton, May 2018  
Proceedings of the 39th Annual Conference of the Cognitive Science Society, London, July 2017  
Redwood Center for Theoretical Neuroscience, University of California, Berkeley, April, 2017

#### SELECTED POSTERS

---

**Langlois, T.A.**, Seethapathi, N., Levy, R., Zaslavsky, N. (2025). Efficient Compression in Locomotion Verbs Across Languages. In *Proceedings of the 47th Annual Conference of the Cognitive Sciences Society*. [\[Poster\]](#)

**Langlois, T.A.**, Charlton, J., Goris, R. (2023). Bayesian Inference by Visuomotor Neurons in Prefrontal Cortex. Program/poster No. PST433.21. *2023 Society for Neuroscience Meeting*. Washington, DC: Society for Neuroscience, 2023. [\[Poster\]](#)

**Langlois, T. A.\***, Zhao, H.C.\*, Grant, E., Dasgupta, I., Griffiths, T. & Jacoby, N. (2021). Passive Attention In Neural Networks Predicts Human Visual Selectivity. In *Advances in Neural Information Processing Systems (NeurIPS)*, 35. [\[Poster\]](#)

**Langlois, T. A.**, Jacoby, N., Suchow, J., & Griffiths, T. (2019). Biases in Visual Memory Reflect Precision not Prototypes. Presented at the *18th Annual Meeting of the Vision Sciences Society*, St. Pete Beach, FL, May 2019. [\[Poster\]](#)

#### TEACHING

---

**University of California, Berkeley Graduate Student Instructor (GSI)**

Methods for Research in Psychological Sciences

Perception

Computational Models of Cognition

Research and Data Analysis in Psychology

General Psychology

#### AD-HOC REVIEWER

---

Conference on Computer Vision and Pattern Recognition (CVPR)

Neural Information Processing Systems (NeurIPS)

Journal of Experimental Psychology: Human Perception and Performance

Proceedings of the Cognitive Sciences Society (CogSci)

#### WORKSHOPS

---

Information Theory and Cognitive Science Workshop, San Francisco, July 2025, 47th Annual Conference of the Cognitive Sciences Society [\[Website\]](#)

#### AREAS OF EXPERTISE

---

**Bayesian models of cognition:** Ideal observer models, efficient coding theory, the Information Bottleneck (IB) principle. **Data analysis** Signal detection theory, neural data analysis (extracellular electrophysiology data),

generalized linear models (GLMs). **Neural Networks** VAEs, CNNs. **Foundation Models**, Vision Language Models (VLMs), meta motivo (RL motor control system)
